SAMARIA INTERNAL SECURITY SCHEME - PART II
TULKAREM POLICE DIVISION

1. The Defence Problem

(a) Area of the Scheme :- The Area of Tulkarem Police Division.

(See Map, APPENDIX X to PART I)

(b) Objects of the Scheme:-

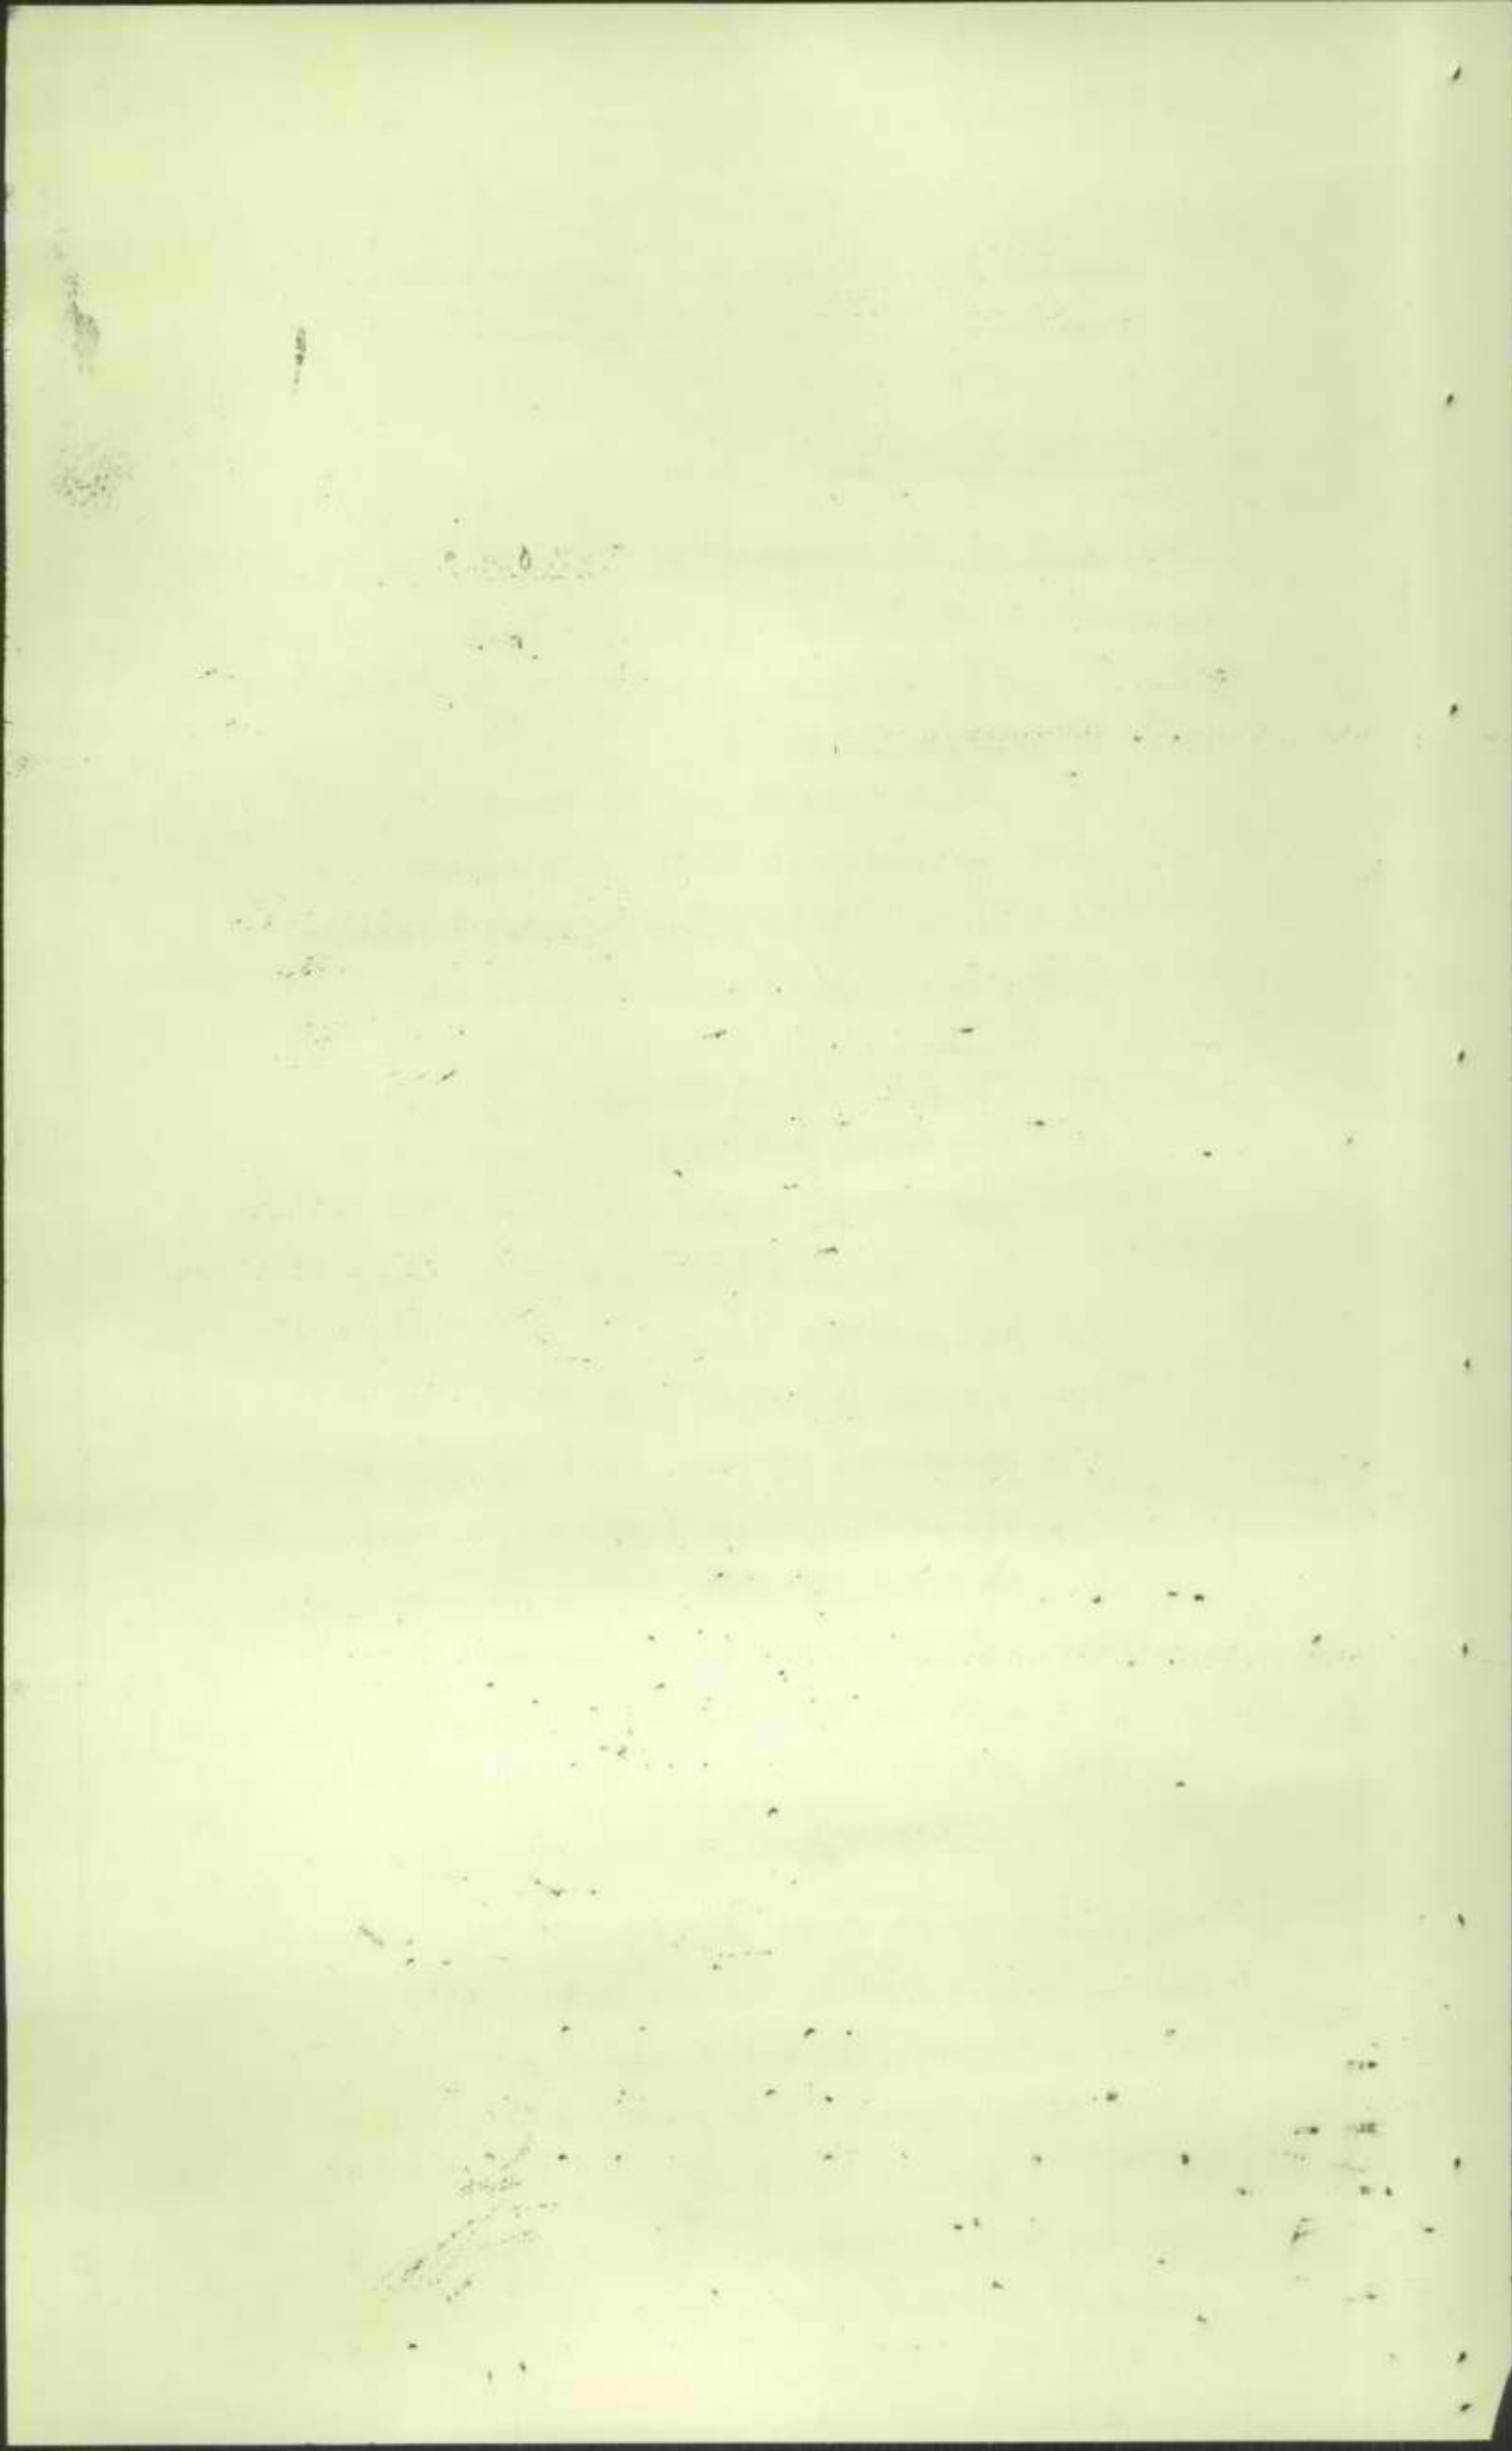

- (i) Maintenance of Law and Order.
- (ii) Protection of Jewish Settlements.
- (iii) Protection of other Vulnerable Points.
- (iv) Protection of Foreign Civilians.

(c) Probable forms of disturbance:

- (i) Demonstrations against Government by townsmen of Tulkarem supported by fellaheen, and perhaps, Bedouins from the maritime plain.

- (iii) Attempted rescues of prisoners from Lock-Ups and Jail Labour Company.
- (iv) Attacks on houses of British Residents in Tulkarem.

2. The primary means at the disposal of the Government for the maintenance of Law and Order is the Police Force. If, however, disorders assume a magnitude beyond Police Control, then recourse to military assistance becomes necessary.

District Commissioners, or, in their absence, Assistant District Commissioners are authorised

SAMARIA INTERNAL SECURITY SCHEME -- PART II
TULKAREM POLICE DIVISION

in emergency to make requests to local Military Commanders to assume dispositions or undertake action in support of the Civil Powers. The Strength of , and dispositions adopted by, military detachments employed at the request of District Commissioners or A/District Commissioners is entirely a matter for the local Military Commander concerned.

SAMARIA INTERNAL SECURITY SCHEME - PART II
TULKAREM POLICE DIVISION

Tulkarem Police station will be organised provisionally, as set out in APPENDIX C.

5. EMERGENCY MEASURES.

Code Word - "Emergency".

Action in emergency will depend upon the nature and extent of the emergency. Disturbances may take more than one form at the same time. Much will have been learnt in the Precautionary Stage as to the form or forms of disturbance to be anticipated and Police arrangements will have to be made accordingly by the A.S.P. in consultation with the District Officer. It may well be that the Police will have only one Problem to deal with at any one time, in which case all the Forces available may be applied to its disposal. It is possible on the other hand, that several problems may arise at the same time, in which case dispersal of such Forces as are available may be necessary. In the latter case the manner and nature of the dispersal will depend entirely on the magnitude and relative importance of the problems to be dealt with. This can only be judged as the problems can be anticipated or as they present themselves, and it must rest with the senior Police Officer on the spot, in consultation with the District Officer, to use the Forces at his disposal in the manner best suited to the situation, having regard to all circumstances connected with it. As a rule, however, action will be taken as follows, in emergency :-

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

1910

1. The first part of the document is a list of names and titles, including "The Hon. Mr. Justice" and "The Hon. Mr. Justice".
